General Information about the World Bank

The World Bank, which is owned by more than 165 countries, consists of the International Bank for Reconstruction and Development (IBRD) and the International Development Association (IDA). It has one central purpose: to promote economic and social progress in developing nations. This is also the aim of the affiliated International Finance Corporation (IFC), which works with private investors from around the world and invests in commercial enterprises in developing countries, and the Multilateral Investment Guarantee Agency (MIGA), which encourages investment flows among its member countries, particularly developing member countries.

In support of its operations, including project work and the assessment of development progress in member countries, the World Bank studies and analyzes a wealth of economic and social data that it is in a unique position to collect. This research is designed to broaden understanding of the development process, to improve the Bank's capacity to give policy advice to its developing member countries, and to support education and indigenous research in those countries.

The Bank offers a wide range of its papers and publications for sale, either as individual items or by subscription to series. Prices are subject to change without notice.

Informations sur la Banque mondiale

La Banque mondiale, qui compte plus de 165 pays membres, comprend la Banque internationale pour la reconstruction et le développement (BIRD) et l'Association internationale de développement (IDA). Son objectif principal est de promouvoir le progrès économique et social dans les pays en développement. Tel est aussi l'objectif de sa filiale, la Société financière internationale (SFI), qui, en association avec les investisseurs privés du monde entier, investit dans les entreprises des pays en développement, et de l'Agence multilatérale de garantie des investissements (AMGI), qui cherche à promouvoir les flux d'investissement entre les pays membres et, en particulier, les pays membres en développement.

A l'appui de ses activités, qui comprennent la préparation

de projets et l'évaluation des progrès accomplis par les pays membres sur la voie du développement, la Banque mondiale étudie et analyse la quantité tout à fait exceptionnelle de données économiques et sociales que sa position lui permet de rassembler. Ce travail a pour triple objectif de mieux faire connaître le processus du développement, de rendre la Banque mieux à même de conseiller ses pays membres en développement sur les politiques à suivre et de contribuer à l'expansion de l'enseignement et des activités nationales de recherche dans ces pays.

La Banque met en vente un grand nombre de publications et documents très divers que l'on peut acquérir séparément ou en s'abonnant à des séries entières. Leurs prix sont indiqués sous réserve de modification.

Información general sobre el Banco Mundial

El Banco Mundial, que es de propiedad de más de 165 países, está formado por el Banco Internacional de Reconstrucción y Fomento (BIRF) y la Asociación Internacional de Fomento (AIF). Tiene una finalidad central: promover el progreso económico y social en las naciones en desarrollo. Esta es también la finalidad de la Corporación Financiera Internacional (CFI), que trabaja con inversionistas privados de todo el mundo e invierte en empresas comerciales en los países en desarrollo, y del Organismo Multilateral de Garantía de Inversiones (OMGI), que promueve las corrientes de inversión entre sus países miembros, particularmente los que están en proceso de desarrollo.

En apoyo de sus operaciones, que comprenden actividades

relacionadas con proyectos y la evaluación del proceso de desarrollo de sus países miembros, el Banco Mundial se encuentra en una posición privilegiada para reunir una enorme cantidad de datos económicos y sociales que estudia y analiza. Este tipo de investigación tiene por objeto ampliar la comprensión del proceso de desarrollo e incrementar la capacidad del Banco para asesorar a sus países miembros en desarrollo en materia de políticas, así como apoyar la educación y la investigación autóctona en esos países.

El Banco vende una amplia gama de sus documentos y publicaciones, ya sea en forma separada o por suscripción a series completas. Los precios están sujetos a modificación sin previo aviso.
